

# Canon Camcorders - Saving Movies and Images to Disc or USB Flash Memory

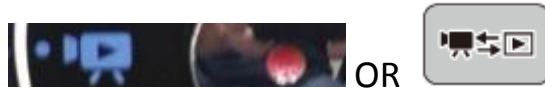

Use following Disc formats **only**:

- DVD-R or DVD-RW
  - ÷ A Direct to DVD burner is available in the Media Services Viewing area for use with their Canon camcorders only (DVD-R, DVD-R DL or DVD-RW discs accepted)
- CD-R
  - ÷ Some CDs may not have sufficient memory for longer video recordings

When using any Disc or USB Flash Memory *always* confirm that you have sufficient space available

**1.** Before downloading any scenes or images to computer you should **create a playlist** on the camcorder containing the scenes you want to save by:

- ÷ Setting the camcorder to playback (on some models this will be a blue control or a toggle control)

- ÷ Selecting the scene(s) from memory that you want to add
- ÷ Using the Function Key select the  "Add to Playlist" icon to add scene(s)

**2.** Log on to computer using your RRC password and log in

**3.** Connect camcorder to computer's USB port using your camcorder's cable/connector

- ÷ Use the power cable; battery cannot be used
- ÷ Set camcorder for playback not record

- ÷ Select the "PC/Printer" option when using with a computer.

(There may be a slight delay during this process)

**4.** Select "open folder to view files" or Open "my computer"

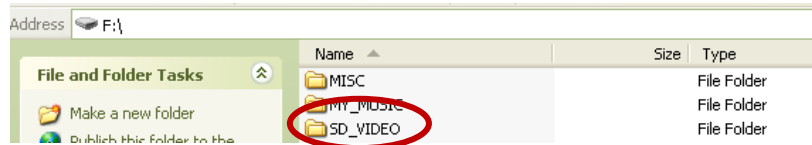

**5.** Select the drive for the camcorder from this list

- ÷ For the Canon camcorder it should appear as "Canon"

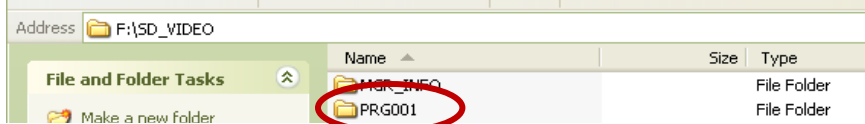

Name	Type	Total Size	Free Space	Co
<b>Hard Disk Drives</b>				
Local Disk (C:)	Local Disk	74.5 GB	49.5 GB	
<b>Devices with Removable Storage</b>				
DVD/CD-RW Drive (D:)	CD Drive			
Removable Disk (E:)	Removable Disk			
<b>CANON (F:)</b>	Removable Disk			

6. Right click the folder to access the movie file(s):

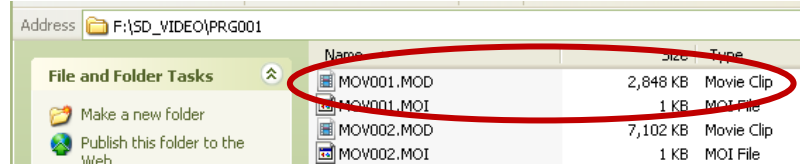

÷ Open SD-Video folder

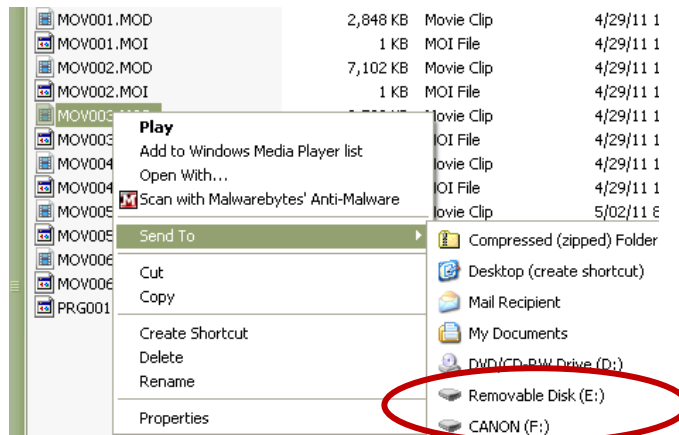

÷ Open PRG### folder

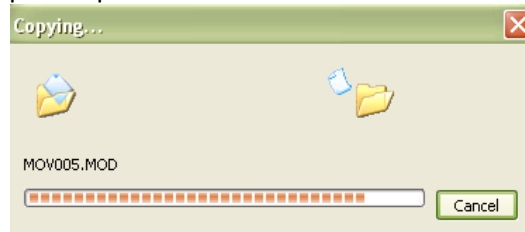

÷ Select the video clip(s) that you want to burn to disc

7. Right Click the video file and Select “Send to ... [name of drive]” For example “Send to DVD/CD-RW Drive (D:) or Send to Removable Disc (E:)”

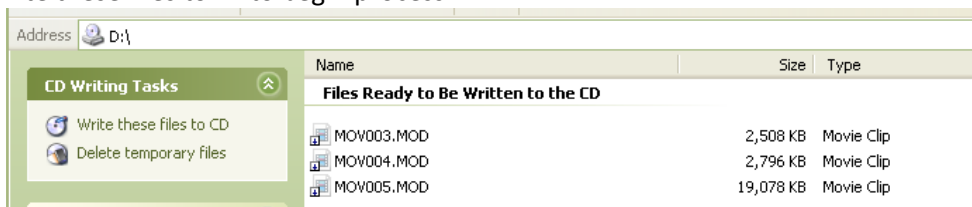

8. Once sending (copying) is complete Open the Drive

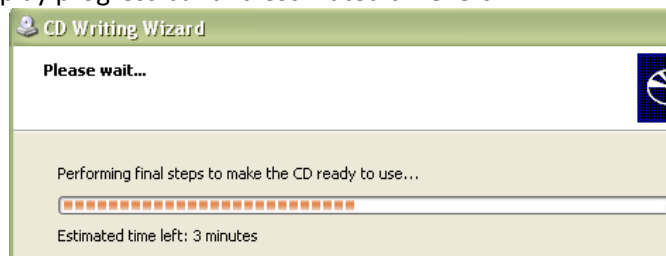

9. Click on the file ready to be written to the medium

10. Click on “Write these files to...” to begin process

÷ You will be asked to name your file and then be guided through the copying process

÷ Computer will display progress bar and estimated time left

÷ Do Not interrupt downloading or burning process by

- ÷ removing memory cards
- ÷ Disconnecting the USB cable
- ÷ Disconnecting the power

(Interrupting the recording process may result in corrupt video content or data loss)

11. DVD or CD will eject when it is ready

OR

÷ Select the remove hardware  /  icon from the taskbar to safely remove USB Flash Memory
