The October 20th Projector carried a big story on the back page to the effect that we are to get a new name! (See "Good Ole What's Its Name".) The Government had indicated some time ago that it hoped to bring about the ceremonies to rename the Institutes (MIT/Manitoba, Brandon, and The Pas) before the end of this year or early in the new year. The Administration of the Youth and Manpower Division is presently working on a position paper which will be discussed with the Minister of Education in the very near future. Premier Shreyer has indicated that our Government wants to involve as many Manitobans as possible in both the picking of a name and in the dedication ceremonies. The students are vitally interested to the extent that they included a suggestion form in their article. I believe that the staff is just as interested.

While the machinery has been set into motion, we doubt that a name will be picked before the end of the year. To speculate that the terms 'Institute' and 'Vocational Centre' will be replaced by the word 'College' would at this time be just that - speculation!

**FLASII**

Mr. Low has just informed your editor that he received a directive late on Friday to the effect that some action will be taken very shortly! He has been asked to reduce the suggestions from the students and the Staff to three or four recommended names for consideration by the Minister. He must do so by this FRIDAY, OCTOBER 31, 1969! So if you have a suggestion, please give it to Mr. Low this week!

You may use the format shown in the Projector giving your suggested name and the reasons why you think this is a suitable one.

**Welcome of New Staff**

Ed Livsey is working as a Laborer in the Stores Department. Ed was born at Rivers, Manitoba but grew up and lived in Fort William, Ontario, until coming to us in August. He spent fifteen years with the Ontario Department of Highways.

Counselling Department. Mr. Hume tripled his professional staff with the addition of "The Sack" and John Leufeld. "Mike is not new to us, having spent six years here as an Instructor in the Electronics Technology Department. Mike holds Engineering and Education degrees.

John Leufeld is a Manitoban by birth and education with a B.A., B.Ed. (Guidance) and course work completed for his M.Ed. (Counselling). He is presently working on his Masters Thesis.

His educational experiences include three years in a Saskatchewan Collegiate as Social Studies Department Head and Vice-Principal, and seven years with the St. James-Assiniboia School Division where he moved into full time counselling and Guidance Department Head.

For the past three years he was Assistant Provincial Supervisor of Guidance with the Guidance Services Branch, responsible for staff development and program development of counselling services in Manitoba Schools.
Mr. Hetfled is a past President of the St. James-Assiniboia Division of the Manitoba Teachers Society. He is an active member of the American Personnel and Guidance Association (A.P.G.A.) having delivered papers at their recent annual conventions in Las Vegas and Detroit, and the past Canadian Membership Chairman of the Canadian Guidance and Counselling Association (C.G.C.A.).

In the School of Business, we welcome:

Mr. P. C. Aliwalia - Accounting Instructor in Business Administration and Hotel Management. He holds a B. Comm. degree from M.I.T. College Slazingham, India and is completing his qualifications for the P.I.A. designation. He has been employed with Strain, Federated Concessaries, and the Marlborough Hotel.

Mr. Michael [name] - is our new Library Technicians Instructor and joined us on August 17/69. He holds a B.A. degree, University of Alberta, a B.C.L. degree, University of B.C. As a Librarian he has worked with the Edmonton Public Library and the University of Iowa Libraries. He is a returned C.I.S.O Volunteer and has served two years with the Guyana Ministry of Education as Curriculum Librarian.

Mr. John-Patrick Caesar - is instructing in Law and Bus. Organization in Business Administration. He holds a B.C.H., and B. Comm. from the University of Saskatchewan. His work experience has been with "The Bay" and Industrial Accentence Corp.

Mr. Keith A. Dwyer - is instructing in Computer Analyst/Programming. He transferred to us from the Computer Centre, Manitoba Finance Department. He holds a B.Sc. University of Manitoba, a Diploma in Education and a permanent teaching certificate.

Mr. Michael Dutcho - is instructing in Personnel and Business Organization in Business Administration. He is a graduate of the University of Manitoba with a P. Comm., Finance option. His work experience has been with Eatons of Canada and CAF Industries.

Mrs. Linda Emeria - is instructing in English and research with the Related English and Social Sciences Department. She is also a mother, a house-wife, and an author, - well qualified for all occupations since she holds a B.A. degree and certificate in Education from the University of London. Linda will research any topic or subject. She has taught in various levels in schools in Nigeria, Jamaica and England.

Mr. John W. Fairlie - is a technical communications Instructor with Related English and Social Sciences. He has attended the University of B.C. and holds a B. Eng., C.E.M. from McGill University. He has worked with Consolidated Mining and Smelting Co.: Department of Mining and Metallurgy, University of B.C.: Atomic Energy of Canada, and as a Process Design Engineer in Glasgow.

Mr. Leo H. Forest - is our new Instructor in Social Welfare Services and transferred to us from the Department of Health and Social Services. He holds B.A. and M.S.W. degrees from the University of Manitoba. His work experience has been with the Social Welfare Departments of Manitoba, and St. Boniface as well as with Peoples Opportunity Services.

The Technology Division introduces the following:

Mr. J. E. Bell - instructs Devices, Measurements, and fundamentals in Electronic Technology. He attended Winnipeg schools and the University of Manitoba (Engineering Communications). He spent fourteen years in the electronics industry with C.A.F. Industries and lists amateur radio as one of his hobbies.

Mr. M. P. Challenger - instructs Modem Study, Manufacturing Process, and Electricity in Mechanical Technology. He holds an Honors B. Sc. in Mechanical Engineering from the University College of Swansea, Wales. Most of his work experience has been in the Automotive field, first in England with the Joseph Lucas Company, as production engineer and product cost analyst, and then in Canada with Motor Coach Industries as a design engineer (on bus design). Is it any wonder he lists car racing as one of his hobbies?

Mr. U. V. Crandell - instructs Electronic Techniques and Instruments in Electronic Technology. He is a 1966 Graduate of the same discipline here at M.I.T. and spent the intervening years with the national Research Council operating and maintaining a 150-foot steerable radio telescope.

Mr. C. W. Duncan - instructs Control Systems and Electrical Fundamentals in Electronic Technology. He holds a H. Sc. in Engineering Physics and an H. Sc. in Electrical Engineering from the University of Manitoba. From time of Graduation in 1967 to joining our staff, he worked for Bristol Aerospace in payload design, manufacture and launch for Black Brant rockets.
Mr. G. W. Carlutt - instructs Physics (PESC 103 and 105) and Chemistry (CHEM 102) in Chemical Technology. He holds a B.Sc. (Honors) in Chemistry and a Ph.D. in Physical Chemistry from the University of Manitoba. He has been involved in pure research at Rutgers University New Jersey, and Bell Telephone Laboratories, (also New Jersey) in the field of "Molecular Spectroscopy applied to solid and liquid surfaces". Summer jobs were spent in engineering areas.

Miss J. A. Graham - is the newest and fairest member of the Physical Education staff! She attended Daniel Mcintyre Collegiate and the Manitoba Teachers College before entering the University of Manitoba to take her Bachelor of Physical Education degree. She is presently completing her B. Ed. course at night school.

Mr. S. Krywy - instructs Drafting and Electronic Instruments in Electronic Technology. He holds a B. Sc. (E.F.) from the University of Manitoba. He has worked with Canadian General Electric as a sales engineer in Quebec City and with Manitoba Hydro in procedures as well as training of apprentices. He understands that he has quite an aquarium of tropical fish.

Mr. A. E. Heinrichs - instructs Mechanics, Drafting, Strength of Materials, and Structural Design in Civil Technology. He holds a degree in Civil Engineering from the University of Manitoba. His work experience includes design, construction, and inspection aspects of sewer and water, street, bridge, highway, and dam construction. This has taken him from Winnipeg to other parts of Western Canada and also to Australia in pursuit of his vocation.

Mr. U. P. McCurdy - instructs Management Methods, Drafting, Thermodynamics and Fluid Mechanics in Mechanical Technology. He holds a B. Sc. (Mech. Engineering) from the University of Saskatchewan and is in the process of completing the requirements for a P.A. degree. He has spent some time with Canadian Westernhouse in Winnipeg, Hamilton, and Toronto: most recently as Field Engineer for the company's industrial customers in Manitoba, Saskatchewan, and North Western Ontario. Experience has been both in marketing and service of heavy electrical apparatus.

Mr. J. A. Reece - instructs Surveying and Photogrammetry in Civil Technology. He obtained his B.Sc. (majors in Math and physics) from the University of Manitoba in 1959 and then worked as technical officer with the Works Department of the Government of Trinidad and Tabago and later as Surveyor with Boyack and McKenzie Ltd. and Reid, Crothanter, and Partners.

Mr. S. M. Shnylyk - instructs Mathematics for Chemical and Civil Technology. He holds an Honors B.Sc. in Chemistry and an M.Sc. from the University of Manitoba and a Diploma in Business Administration from the University of Toronto. Prior to joining our staff in August, he spent two years with Gulf Oil of Canada as a research chemist in petroleum products.

Several new telephone numbers have been installed since the original sheet of switchboard numbers was distributed. They are as follows:

A complete classified directory will be issued as soon as all phones have been installed.
Overheard in the Staff Lounge

Today we picked up some verse. As everyone knows, (especially after a few beers)

"It's hard to find
For love or money
A joke that's clean
And also funny."

Pose Marie Hess (Head, Typing Pool) submitted this one:

**Labor Notwithstanding**

From the hour she arrives
'Till the hour when she quits
The stenographer strives
To impress while she sits;
Through the tedious grind,
As the keys rise and fall,
This may broaden her mind.
But, alas, that's not all.

A second one about the Secretary:

"On clothes she spends her legal tender;
Because the truth she's found --
A dress can make a girl look slender,
And a hundred men look 'round."

**Capsule with a Vision**

Poise is the art of raising the eyebrow instead of the roof.

Confucius say ostrich who been head in sand too long during hot part of day gets burned in end.

Even the woodpecker owes his success to the fact that he uses his head until he finishes the job.

Experience is a wonderful thing. It enables you to recognize a mistake when you make it again.

Locally the husband is the head of the household and the pedestrian has the right of way.

Both are safe as long as they don't try to exercise their rights.

He may not admire everything about the Government, but we do have to hand it to the Department of National Revenue.

The old philosopher says it's not the ups and downs in life that bother us - it's the jerks!
