A WORD FROM THE EDITOR

At this time of the year there are usually two main items uppermost in the minds of the majority of the staff, students and administration - final exams and graduation. Needless to say the preparations for both are well under way. This year there is a third item in the minds of staff and administration, however, and that is the 1974-75 budget. Last year we went through a H.E.S.P. estimate exercise in July and August and followed up some weeks later with an itemized estimate for the College. The two months proved to be an awkward time of the year as the majority of the staff were on vacation. It is difficult to choose a time of the year that is convenient to all concerned to devise estimates. Perhaps late May and early June may prove to be the most suitable. Coupling the H.E.S.P. estimate and the R.R.C.C. detailed estimate into one exercise may not be just a highly acceptable time-saver but may well reduce the annual frustrations that such exercises invariably invoke. Nonetheless a budget is part of our way of life. In fact the survival of most businesses depends on how well their future activities have been planned.

ANNOUNCEMENTS

Defensive Driving

The Defensive Driving Course will be starting its last regular sessions May 28, 29, 30 and 31 at 11 different schools throughout Metro Winnipeg from 7:30 to 9:30 in the evening.

Information and enrolling booths have been set up at two locations at the College. One near Buffalo Place and the other near the Mall Level entrance to the North Gym.

If enough interest is shown, a course will be set up at Red River Community College starting Wednesday, May 30 or Thursday, May 31.

Registration for courses will be accepted at the booths. Information booths are open from 9:00 a.m. to 4:00 p.m., Monday through Friday until May 31 at Red River Community College.

### Semi-Finals

**1st place Group 1 vs 2nd place Group II - Game A**
**1st place Group 11 vs 2nd place Group 1 - Game B**

### Baseball Staff (men)

Something's wrong here. Out of 2 games played by each RRCC mens staff team in the Manitoba Government Employees Fastball League, RRCC #1 team has 2 losses and RRCC #2 has 2 wins. Maybe the names should be reversed!!!

**RRCC #2 Roster is**
- Pitcher - C. La Fleur, M. Boroske
- Catcher - R. Newman
- 1st Base - D. Reid
- 2nd Base - A. Friesen
- Shortstop - C. Orcutt
- 3rd Base - G. Kornelson
- Fielders - L. Fletcher, G. Anderson, J. Green, Mel Lowe, Len Woytowich, K. Allan, W. Hunter, L. Kimacovich

**RRCC #1 Roster is**
- Pitcher - Alf Leite, Bill Moffat, Walter Gray
- Catcher - Kent Dudley
- 1st Base - Glen Morrison
- 2nd Base - D. Watts
- Shortstop - John Benes
- 3rd Base - Ted Dunsford
- Fielders - Frank Hallas, Dave Curtis, Ed Livesey, Lorne Carmichael

BASEBALL - cont'd

Quarter Finals Begin August 2
Semi Finals Begin August 14
Finals Begin August 23

There are 16 teams in the men's MOE Fastball League this year, eight in A Division and eight in B Division. Both RRCC teams are in the B Division. Playoffs interlock.

It could happen to you

Always agree with a woman before you start telling her she's wrong.

One of the most expensive things in the world is a girl who is free for the evening.

A man in Alaska was arrested for polygamy, when it was discovered he had a wife in Nome, another wife in Fairbank, and a third in Juneau. In court the judge looked down at him and asked sternly, "how could you do such a thing?" The culprit replied, "a good dog team your honour."

"Again, in part of Africa, where a tribal taboo prevents a bachelor from marrying a widow, any young man so inclined can overcome the problem by allowing himself to be wed to a tree, which he then cuts down, thus making himself a widower and so eligible at practically no cost, except to the tree."

Two business men were discussing marital problems during their lunch hour.

I don't know what to do about my wife said one, she is always out spending money. She doesn't take care of the house any more and worst of all, she rationed my love-making to once a week. I wouldn't be too upset about that said his friend, I know some guys she cut off completely.

Wife to husband: "What kind of pictures have you been taking that you have to develop them in the dark."

A father put in an urgent call to the doctor and told him his son had swallowed a fountain pen. I'll come right away said the doctor. What are you doing in the meantime? Using a pencil said the father.

Policeman: "Did you get the license number on the car that knocked you down?" Woman: "No, but the woman driving it wore a black turban, trimmed in red and her coat was imitation fur."

Man on bus: "Will my cigar smoking bother you, ma'am?"
Woman: "No, not if my getting sick doesn't bother you."

We never used to be able to find grandma's glasses, but now she leaves them right where she empties them.

Disposable income is called "take-home pay" because after taxes and deductions, you can't afford to go anywhere else with it.

Parked in front of a store was a little Volkswagen car, filled by what seemed to be the world's largest Saint Bernard dog. As we joined the crowd, I heard a voice drawl, "Wal I guess they put him in when he was a pup."

A second-hand car dealer, having made a quick sale earlier, was alarmed to see the purchaser drive back into the yard. "Nothing wrong is there?"
"Not yet, I just wanted to return some things that the previous owner had left (that quiet little lady). Her tobacco pouch was in the glove compartment and a bottle of scotch under the seat."
IT COULD HAPPEN TO YOU - cont'd

A man accompanied by a small boy entered the barber shop and asked for a haircut, shave and shampoo. When the barber finished the man said, "I'll just dash across the street for some cigarettes while you give the boy a haircut." The barber cut the boy's hair and waited for the man to return. Finally he said, "your father is taking a long time."'Oh!' explained the boy, "that wasn't my pop, that guy just stopped me on the street and asked me if I'd like a free hair cut."

DIRECTOR'S ADVISORY COUNCIL
April 17, 1973

If you have any matter you would like discussed at the Director's Advisory Council, please contact your representative as listed below:

Administration: G. L. Talbot (Chairman), Ray H. Newman, W. H. Grant
S. L. Ursel, W. Porter, J. Green

Faculty: H. Zacharias, D. Dales, E. Hirst, D. Darvill,
P. Nicolle, J. McMillan

Department Heads: B. Barnard, P. Elvers, L. Rodkin, L. Fletcher

Faculty Association: Dr. B. Garbutt

Students: G. Novak, M. Clark, B. Simanchuk, J. Rouse, S. Hawe
D. Robertson, N. Korpesho, W. Drury

Reports were presented by Phil Nicolle (on behalf of Cheryl Hawe and Lou Rodkin) regarding a trip to Mount Royal College and Southern Alberta Institute of Technology (SAIT), and Ray Newman on his trip to Lakehead University and Confederation College at Thunder Bay.

NOTE: Complete copies and supporting material are available in the periodicals section of LRC.

FINANCIAL ASSISTANCE FOR EDUCATIONAL OR TECHNICAL UPGRADING

There is a program available through Management Committee (Staff Development) to financially assist employees to take formal upgrading programs

To qualify for the assistance there are a number of criteria:

(1) It must be recommended by the employee's supervisors.
(2) It must be relevant to the employee's present job.
(3) The employee must be taking the course on his or her own time.
(4) Normally the assistance is 50% of the tuition fees and is payable only after proof of successful completion.
(5) There is a budget restriction on the funds available for this purpose and so we only recommend assistance - final approval must come from Management Committee.
(6) The financial assistance must be approved prior to enrolment not after the fact.

Employees wishing to request assistance should submit data on the course they propose to take, the time frame involved and the cost. The employee submissions would be processed through to the head of each responsibility area and if recommended would then come to Personnel for final submission.

I would like to emphasize that the course must be relevant to the present job. For example, an employee working as a clerk might want to become a steno and therefore apply for assistance to take a Secretarial course. This would not qualify since the employee would be taking training relevant
FINANCIAL ASSISTANCE - cont'd

to a different career path.

However, an accountant wanting to take the RIA program would likely receive assistance since the course is relevant to the present job function.

Someone taking educational leave with full pay would not qualify since the course is being taken on our time. In effect this assistance really only applies to evening and Saturday sessions.

If staff are planning to take courses this fall, and are requesting assistance, they should make application in late July or early August.

For further information call A. J. Lowe, Personnel Administrator, Community Colleges Division at Local 331.

INSTRUCTOR VOCATIONAL "A"

Instructors are reminded that reclassification from "A" to "B" category may be effected provided that the instructor:

1) has completed three (3) 60 hour courses towards the certificate in adult education or its equivalent;

2) has a minimum of 10 months of satisfactory teaching experience within the college system and a recommendation of his immediate supervisor based on satisfactory performance as a college instructor.

The procedure is for the instructor to present a request for reclassification to the principal of his or her division, supported by documentation regarding (1) and (2) above.

Community College instructors who now have the Permanent Special Certificate valid in provincially operated schools issued by the Department of Education will not be required to obtain the Certificate in Adult Education. Those who would prefer to have the Certificate in Adult Education can, however, exchange their Permanent Special Certificate for one, but no one may hold two provincial certificates on the same qualifications.

New instructors and those who, to date, have not qualified for the Special Certificate will be issued a Certificat in Adult Education when all requirements have been met. If any delay occurs in the issuance of your certificate contact the Chairman, Teacher Education Section, Red River Community College.

Those wishing to teach in the High Schools of the Province will experience no difficulty in gaining credit for relevant courses they have taken. If all other prerequisites are in order they will receive an Interim Certificate valid to teach the specific vocational specialty in which they have verified expertise. After additional courses and two years of acceptable teaching in the High School System they may apply for permanent certification from the Director of Teacher Certification, Department of Education.

For an assessment of credentials, please forward the following information to the Director of Teacher Certification, Department of Education, Room 312, Robert Fletcher Building, 1181 Portage Avenue, Winnipeg, Manitoba:

-- academic standing
-- technical qualifications
-- proof of work experience
-- other specialized attainments.
The following letter was received from Morden Collegiate Institute:

Co-ordinator, Open House Day,
Red River Community College,
2055 Notre Dame Avenue,
Winnipeg, Manitoba.

Dear Sir:

I would like to take this opportunity to express my sincere appreciation for the fine work done in making Open House Day as beneficial as it was. I felt that the emphasis on displays was of particular benefit, and I feel that the displays set up by many of the courses were extremely helpful in drawing the student into taking a closer look at particular courses.

Students at the college were also very courteous, and seemed to be very congenial in dealing with visitors. I would like to see even greater emphasis on displays and student aids in future open houses.

I also feel that the publication by Projector (Open House - April 13, 14) would be extremely beneficial for use in my guidance classes, and wonder if it would be possible for me receive about 30 copies of that particular issue.

Thank you!

Yours truly,
John Shaw,
Vice-Principal.

THOUGHTS ABOUT CHANGE

I would like to share with you some thoughts on change taken from the Royal Bank of Canada Monthly Letter, December, 1970.

Humanity has always lived in a time of change, sometimes slow, sometimes fast. Today, men everywhere are living through a change in the human scene that challenges many ideas and institutions inherited from other days. Their awareness of their natural environment; their relationship with other men; and their sense of the possibilities in human life; all these have been transformed.

Once a thing has become a custom, some people suffer emotional disturbance when it undergoes change. Some believe that anything that has not been done before is unnecessary and they are just as troublesome as those who believe that nothing should be done except for the first time.

People who are not constantly replacing old ways and expectancies with new ones are in a sense ceasing to live, because not having and resting, but growing and becoming, are the chief ingredients of life and culture. Change from ignorance to knowledge, from clumsiness to skill, is a delightful experience.

Satisfied people do not get things done. They have reached their goals, (if they had any). They do not consider ideas on their merits but with reference to beliefs which are in part a survival from primitive civilizations. They are afraid of innovations, and think up 20 objections to
THOUGHTS ABOUT CHANGE - cont'd

counter every suggestion for advancement. They have not grasped the fact that the greatest part of human enjoyment arises out of joys which are lovable because they are changing: children, trees, seasons and cloudy skies.

There are, of course, fanatical people with dreamers' eyes who desire change for the amusement they find in pulling things to bits. They make a pandemonium and call it progress. People may be apparently rational in one thing and foolish in others. For example, Pythagoras used his reasoning faculty to develop the theorem that in a right-angled triangle the square on the side opposite the right angle is equal to the sum of the squares on the other two sides, but in another compartment of his mind he believed that it is wicked to eat beans.

Constructive progress is always the result of someone's being willing to break with the pattern of the past. We need to take old ideas that are good and shape them to meet today's circumstances and to pass on to new experiences. Tennyson wrote in one of his poems that we may use the position we have attained today as a stepping-stone to higher things. If, instead, we use it as a pedestal on which to pose we alienate ourselves from life.

It is more comfortable to prepare for and accept change than to wait until it is forced upon us.

The changes that we get peeved about are generally things we have not anticipated in our thoughts. We could adjust to them, or mould them to our needs, if we took the trouble to examine them in relation to our lives. We need not abandon old practices, methods, and hopes, but merely revise them. By making small changes day by day we avoid the upsetting experience that occurs when an accumulation of stresses suddenly breaks upon us.

Active adaptability is essential to survival. This requires continuous learning. Education will help people to adjust constantly to new mechanical devices and new ways of doing things. You cannot ignore what is going on, so get to know about it.

Observe what is happening and ask "why?". The great advances in understanding often begin when people ask questions about things which up till then they have taken for granted. One who accepts a label without questioning the thing's validity has ceased to learn.

The history of change shows that when conditions get better people become more openly dissatisfied. The disparity between their lot and that of others becomes more evident, and they do not give thanks for the distance they have advanced so heartily as they urge the distance they want to go.

If we are convinced that the present is on the whole better than the past and that the future may be better still if we make the effort, we may change with confidence. Neither stability nor change has any intrinsic value. The worth of stability is the goodness it preserves; the worth in change is the goodness it brings about.

...... Barb Barnard

COMPUTER CENTRE CHATTER

To All Departments:

The Systems and Programming and Computer Services staff of the Computer Centre hereby challenge ANY department to a game of ANY sport available within the College facilities. You name the sport and at a mutually agreed upon time we will endeavour to defeat you by way of our natural athletic ability.
There are only two conditions to be met for us to accept the challenge. The first is that all members of our opposition should be from the same department. This condition is set down so that we do not accept a challenge from a specially gathered team designed to defeat and humiliate us. The second condition is that the sport is available within the facilities of the College so that the game may be played during a noon hour.

If no challenges are made we shall consider ourselves CHAMPIONS of all sports within the College. We are making these rash statements in reply to the overwhelming non-response we received concerning our volleyball challenge made in the last issue of the newsletter. BEWARE!!

Graduating C.A.P. students have been introduced to a more practical approach to educational training. The administrative staff of the Computer Centre have set up a program which allows the students to observe the actual operation of an Administration Computer System. The system being demonstrated is the L.R.C. Acquisition System. According to Louis Rodkin, C.A.P. Department Head, the objective of this program is to help the student understand the work of a Computer Operator and, therefore, design systems and programmes with the operator in mind.

It is hoped that this type of program could be continued for future graduating classes.

The OMR Exam Marking System has been completely redocumented and is available now to all users. A new set of the procedures has been sent to all department heads.

DON'T BE NAUGHTY, LOTTIE!

In 1923, a teacher named Lottie Jones made a contract with a board of education in Ontario.

In return for her salary, Miss Jones agreed to the following terms of employment:

1. Not to get married. This contract becomes null and void immediately if the teacher marries.
2. Not to keep company with men.
3. To be at home between the hours of 8 p.m. and 6 a.m. unless she is in attendance at a school function.
4. Not to loiter downtown in ice cream parlors.
5. Not to leave town at any time without the permission of the chairman of the board of trustees.
6. Not to smoke cigarettes. This contract becomes null and void immediately if the teacher is found smoking.
7. Not to drink beer, wine or whisky. This contract becomes null and void immediately if the teacher is found drinking.
8. Not to ride in a carriage or automobile with any man except her brothers or father.
9. Not to dress in bright colors.
10. Not to dye her hair.
11. To wear at least two petticoats.
12. Not to wear dresses more than two inches above the ankle.
13. To keep the schoolroom clean; to sweep the classroom floor at least once daily; to scrub the classroom floor once a week with hot water and soap; to clean the blackboards at least once daily; to start the fire at 7 a.m. so that the room will be warm at 8 a.m. when the children arrive; to carry out the ashes at least once daily.

..... Florian W. Green
DON'T BE NAUGHTY - cont'd

14. Not to use face powder, mascara, or paint the lips.

STAFF IN THE COMMUNITY

On April 19, Mr. Louis Rodkin of the Computer Instruction Department, was guest speaker at a Management Development Seminar held at Zoratti's Restaurant. The subject of his talk: "The Computer Analyst/Programmer Course at Red River Community College."

Mr. Rodkin, who was born and raised in Winnipeg, has a Bachelor of Commerce (Honours) degree in Acturial Mathematics from the University of Manitoba. From 1963 to 1968 he worked for Great West Life in the Acturial Department and as a Computer Systems Analyst. In 1968 he joined Red River Community College as an instructor in the Computer Department. In 1970 he was made Head of the Computer Instruction Department.

On May 6, Mr. Harold Redekopp of the Communications Department directed a performance of Schubert's last mass, the E flat, at St. John's Cathedral.

The production involved the combined choires of St. John's Cathedral, trained by Harold Christie, and the choir of St. Stephen's Broadway United Church, trained by Mr. Redekopp. A small group of strings assisted, and Margaret Belyea played the organ.

Writing in the Free Press, Ronald Gibson stated: "Mr. Redekopp kept his forces well together and succeeded in getting some quite expressive singing... The solo work in the Agnus Dei was quite lovely.... St. John's Cathedral is a lovely church for such a performance, and there was a good audience."

Mr. Redekopp, who has a Master's Degree in Geography, has been an instructor in the Communications Department for the past two years. Prior to coming to R.R.C.C, he was a high school teacher of English and Social Studies.

MEDALS TO BE AWARDED

The Honourable W. J. McKeag, Lieutenant-Governor of Manitoba is pleased to announce that he will again be awarding medals for proficiency to graduating students who, in the opinion of the Selection Committee, combine to the greatest extent in their graduating year.

a) Academic and Technical ability;
b) Participation in College activities: and
c) Good character and personality

The awards at Red River Community College will be made to one student from each of the following groups.

1. Diploma Course student from the science-based curricula.
2. Certificate Course student from the science-based curricula including Academic Upgrading.
3. Diploma Course student from the arts-based curricula.
4. Certificate Course student from the arts-based curricula including Academic Upgrading.

The Selection Committee will be composed of:

1. One senior administrator from Red River Community College.
MEDALS TO BE AWARDED - cont'd

2. Two members of the instructional staff of the Related Subjects areas of the College.
3. Two members of the Student Association of the College.

Nominations can be made by any four or more instructors and/or students and must contain justification as outlined in paragraph (1) above for making the nomination.

All nominations must be in the hands of the Selection Committee by June 5, 1973.

Nominations can be sent to Mr. S. P. Didcote, Room C719 and should be marked "Selection Committee - Lieutenant-Governor's Medals".

THE ADDITION TO OUR CAMPUS

The North Parking Lot at the Red River Community College has been deformed with the addition of a new building referred to as Building "J". Building "J" began appearing as a physical being in August, 1972 following eight months of planning, design and tendering. It is scheduled for final completion on July 31, 1973 barring imminent strike delays. The first two completion stages have been realized. The interior of the Annex to Building "W" was completed in early February, 1973 and occupied by the Carpentry and Masonry students immediately. I would suggest that you go and take a look at the activity in the Building "W" Annex at your earliest convenience. The interior of the Autobody Shop was completed around March 20 and the move of the Autobody courses from Building "B" culminated with the moving of the spray booth on May 10.

Other courses to move to Building "J" include Painting & Decorating, Plumbing & Steamfitting, Drafting & Related Industrial Science. Architectural and Machine Drafting, with the related options, will occupy part of the second floor of the classroom section. Four drafting rooms to service a multitude of Industrial & Applied Arts courses are located on the main floor in the classroom section. Four demonstration type science rooms are located on the second floor of the classroom section.

New shops which are being established in Building "J" are Railway, Gasfitting and Aircraft Mechanics. Each of these shops will offer a new dimension to the variety of programs offered at R.R.C.C.

The floor plans on the last pages, give you some idea of the layout of the new building.

The area vacated in Building "E" due to the move of the Drafting Department and the area in Building "W" due to the move of the Related Science area will be occupied by the Adult Basic Education programs when they move from the FOAC to the Red River Community College.

The area vacated by the Autobody Shop has been redesigned for use by Diesel Mechanics and Welding. Renovations are planned to start in this area immediately and the new facilities are to be ready by September, 1973.

When the Plumbing Shop facilities move to the new building, the Refrigeration Shop will move to the location of the present Plumbing Shop. The Appliance Repair Shop is scheduled to move to the location of the present Refrigeration Shop. Tentatively the final link in the chain will be the expansion of the Automotive facilities into the present Appliance Repair Shop.

Plans are to have all the moves complete for the beginning of classes in September.

....Cy Howard
PHOTO TECH

Instructors in the Photography Department are pretty pleased these days.

Malcolm Paterson, who teaches Photographic Option, Advertising Art, in the Creative Arts Department, has been honored with a prize in an international photo competition at Munich, Germany.

Competing with a large number of expert photographers from all over the world, he won sixth place for his color transparency entitled "Experiment in Red, Green and Blue" - photographed at Beaver Lake, Stanley Park.

The letter announcing his award stated, "We are pleased with the success of your work and congratulate you on the award."

The photographic contest was announced in the magazine "International Photo Technik."

Meanwhile 13 photography students at RRCC had prints hung in the recent "Students Behind the Camera" competition at Conestoga College of Applied Arts and Technology, Kitchener, Ontario.

Two of them won awards - Nicole Guyot placed second in the Fashion class, and James R. Murray won third place in the Industrial and Commercial black and white competition.

The students competed against entries from 22 photography schools across Canada. Their instructors were Tony Simmonds and Jim Hammel.

SATELLITE TYPING POOLS

There has been a change in the satellite typing pools.

The typing areas and operators are now as follows:

<table>
<thead>
<tr>
<th>NAME</th>
<th>LOCAL</th>
<th>LOCATION</th>
</tr>
</thead>
<tbody>
<tr>
<td>S. Bickerton</td>
<td>391</td>
<td>E-116</td>
</tr>
<tr>
<td>M. Chipura</td>
<td>272</td>
<td>A-101</td>
</tr>
<tr>
<td>A. Lee</td>
<td>200</td>
<td>FM-22</td>
</tr>
<tr>
<td>M. Staub</td>
<td>297</td>
<td>Reception Area</td>
</tr>
<tr>
<td>B. Stobbs</td>
<td>337</td>
<td>Reception Area</td>
</tr>
</tbody>
</table>

The main typing pool is located at C-306, local 308.

Please use the typing area closest to you. If a satellite area is overloaded with work the main typing pool will handle the work.

...... R. M. Hess
The Commonwealth is not for governments or statesmen alone. It is for the people, for all the people of the Commonwealth. And the Commonwealth will be what its people will it to be.

The Commonwealth asks us to live up to its ideals of friendship and understanding. But it also provides us with practical opportunities to cooperate, to serve each other and to break down the fences between peoples. It calls for the interest, curiosity and concern of all of us and especially of the 400 million young people who are under 25.

I know from my own experience how rewarding personal contacts in the Commonwealth can be, but we must both keep our friendship alive and at the same time never forget the importance of devising further ways of strengthening the links between us. No other association of independent nations in the world's history has given such scope for the development of new relationships between individuals and between governments.

The challenges are therefore very real and very demanding. If we fail to meet them, our successors will reflect sadly on a wonderful opportunity lost. If we succeed, we shall not only build a stronger and happier Commonwealth, but we shall also show that mankind is capable of living in peace and amity on a scale never achieved before.
